PROFESSIONAL SUMMARY

Second-Year Information Technology undergraduate at **Jabalpur Engineering College** with hands-on experience building **full-stack applications using React.js, Node.js, Express.js, MongoDB, and Generative AI technologies**. Developed a banking transaction management system featuring a double-entry ledger architecture for secure and auditable financial operations, along with an AI-powered interview preparation platform leveraging Google Gemini. Strong foundation in **Data Structures & Algorithms, RESTful API development, and backend engineering**, with a passion for building scalable software solutions.

EDUCATION

Jabalpur Engineering College (JEC), Jabalpur

B.Tech in Information Technology | 2024 – 2028

- Semester I CGPA: 7.67
- Semester II CGPA: 8.00
- Semester III CGPA: 7.23

CBSE Class XII, Varanasi

- Percentage: 82.4%

PROJECTS

BANKIFY-Bank Transaction Management [<https://bank-transaction-system-nu.vercel.app/>]

- Developed a full-stack banking platform supporting account management, deposits, withdrawals, fund transfers, and transaction tracking.
- Designed and implemented a **double-entry ledger system** to ensure financial accuracy and maintain balanced debit-credit records for every transaction.
- Built secure authentication and authorization workflows along with **RESTful APIs** for transaction processing and account operations.
- Developed a responsive user interface and scalable backend architecture for reliable banking operations

GENAI-INTERVIEWHELP [<https://genai-interviewhelp.vercel.app/>]

- Built an AI-powered interview preparation platform leveraging Google Gemini for personalized interview assistance.
- Implemented dynamic question generation, answer evaluation, and feedback mechanisms to improve candidate preparation.
- Integrated prompt engineering techniques to generate role-specific interview questions and actionable recommendations.
- Designed backend APIs for efficient communication between the frontend and Gemini-powered services

CORE SKILLS

- Programming Languages:** C/C++, Python, JavaScript, TypeScript, SQL
- Backend & Dev:** Node.js, Express.js, FastAPI, RESTful APIs, **FULL- STACK DEVELOPMENT**
- Tools & Technologies:** Git, GitHub, Postman, VS Code, MongoDB
- Core CS:** Data Structures & Algorithms, Object-Oriented Programming, Problem Solving
- AI & Generative AI:** Google Gemini, Prompt Engineering, Generative AI Applications

ACHIEVEMENTS

- Solved 250+ Data Structures & Algorithms problems across coding platforms..
- Participated in **Smart India Hackathon 2025**.
